LONG TIME INSULATING CONCRETE FORMS (ICF) MANUFACTURER DEVELOPS CLEVER, NEW ICF, SOLD MANUFACTURER DIRECT

Airlite Plastics Company, Omaha, NE., announces the introduction of its very own ICF product line called “**Fox Blocks**”. Airlite Plastics has manufactured Insulating Concrete Forms for several customers for 10 years. Now, the Fox Blocks line of ICF products for residential and commercial construction is available direct from the manufacturer at a significant cost savings.

Fox Blocks offers a high quality, construction friendly block design at a lower price. It gives you all the benefits of a traditional ICF block – energy efficiency, durability, safety, cost savings and comfort – with special features that make it a better value.

Fox Blocks’ uniquely clever design helps speed construction with:

- Easy-to-use reversible, pre-assembled blocks.
- Exceptionally strong ties to allow for less shoring.
- A special corner bracket for additional strength and easy application of veneer finishes.

The name says it all. Like the fox, **Fox Blocks** is the design that outsmarts the others - clever, environmentally friendly, quick and adaptable to even the most extreme conditions.

If you would like more information about **Fox Blocks**, please call Dave Jackson at 1-877-FoxBlocks or Dave@FoxBlocks.com or visit www.FoxBlocks.com.
