## **FOX BLOCKS T-BLOCKS NOW AVAILABLE IN 6" AND 8" SIZES**

**Fox Blocks** now has available its industry unique T-Block in 6" and 8" sizes. The T-Blocks come in a short leg and long leg version and are stacked on top of each other to achieve a running bond. The long leg version is molded with 9 plastic ties and the short leg version is molded with 8 plastic ties, making the T-Block one of the strongest of its type. They are sold in a bundle of 6 blocks with 3 short legs and 3 long legs per bundle.

The **Fox Blocks** T-Blocks are extremely useful when your plans call for demising walls, party walls, and other intersecting walls. In the past, installers have had to abutt straight blocks to a flat wall. Now the T-Block offers a significant time savings in lieu of stacking blocks with other methods.

The name says it all. Like the fox, **Fox Blocks** is the design that outsmarts the others - clever, environmentally friendly, quick and adaptable to even the most extreme conditions.
