FOX BLOCKS ANNOUNCES ADDITION OF 4" HEIGHT ADJUSTER TO ITS LINEUP

Fox Blocks, a division of Airlite Plastics Company, Omaha, NE., introduces a new 4" height adjuster to its lineup in response to the industry's request for more options in ICF wall systems.

This height adjuster feature the same 2 5/8" EPS panel thickness of the 4", 6" and 8" blocks.

This new accessory allows Fox Blocks wall constructors to insert an extra 4" of wall without the need for cutting full blocks. One 4" height adjuster can be inserted per every 10' high wall at near two thirds up the wall height. This new height adjuster can be used with any of the 4", 6" or 8" Fox Blocks shapes.

The name says it all. Like the fox, **Fox Blocks** is the design that outsmarts the others - clever, environmentally friendly, quick and adaptable to even the most extreme conditions.

If you would like more information about **Fox Blocks**, please call Dave Jackson at 1-877-FoxBlocks or Dave@FoxBlocks.com or visit www.FoxBlocks.com.
